How can I prevent Nike+ Training shoes from sharing data with its smartphone app?
2019/12/01

Hello Delilah! Nike+ Training shoes are one of the three models from their new series of tracking shoes. The other two are Nike+ Basketball shoes and Nike+ Running shoes. All of them are stuffed with many sensors like Nike+ Pressure Sensor that is used to track all your movements. Nike+ Training shoes and the other two models can transfer all data gained by those sensors to iOS smartphones, and if you have pre-iPhone 4S device then you will need to use Nike+ Sport adapter, and that is additional \$20 from your pocket. Nike+ Training shoes can also transfer all data from its sensors to your PC. No matter where you choose to transfer all the data (smartphone or PC), it is done via Bluetooth connection. So to prevent Nike+ Training shoes (or any other model like Nike+ Basketball shoes or Nike+ Running shoes) from sharing data collected by the sensors with either smartphone app or PC you can use Nike+ Training shoes jammer. Oh, and note that I am not asking you why do you even need to do that ;)
