How can I block shower room spy cam?

2019/07/09

Hello Maria! If you are really sure that someone is using hidden spy camera to watch you and your friends in the shower room of your hostel, then you can count on modern electronic anti-spy gadgets to deal with your problem! First of all, you can use hidden camera scanner to detect the spy cam in the shower room. This device detects all known surveillance frequencies. Secondly, you can use spy camera jammers to block shower room spy camera from making video and sending it to the ones who placed this camera in the shower room. In any way, I hope this will help you to get rid of those spying perverts! ;) And if you have some more questions - just ask them!
