How can I zap LHB326 Wireless Network Blu-ray Disc Home Theatre System? 2019/08/19

Hi Stewart! Well, I know what a disaster a neighbour could be! And I've heard about LHB326 Wireless Network Blu-ray Disc Home Theatre System. It's a 5.1 wireless home theater. It has a digital amplifier, Wi-Fi receiver and it delivers a pure, powerful sound to your house and the most annoying to your neighbours=) Total power output is 1100W. It can be connected to your Wi-Fi broadband router and the videos or music from the internet can be easily streamed to your home theatre. But there is a solution of your problem, Stewart! The device uses Wi-Fi connection to transmit data from the internet to the amplifier. Wi-Fi uses 2.4 GHz frequency band and it can be jammed in no time! The only problem is the distance to your neighbour's wireless home theatre so I recommend you a powerful Wi-Fi jamming device. I hope that it will help you to sleep well!
