How can I protect my home from iRobot 710 Warrior?

2019/08/19

Hi Mike! I guess you watched this video of iRobot 710 Warrior or the similar one. It is impossible to disagree that this technological miracle is really impressive and demonstrates how advanced modern technologies are. Yes, this robot can do a lot of things, useful in different situations and in hands of the right people it can be manipulated effectively to save a lot of people's lives. But if the iRobot 710 Warrior get into wrong hands, it may become very huge potential danger for anyone. It is highly maneuverable, can climb stairs and other slopes both up and down, has surveillance cameras and very skillful manipulator that can do a lot of things, among which are reaching places that are hard to reach and lifting cars. Still it has a weak spot. iRobot 710 Warrior must be controlled by human through remote control station using radio Ethernet connection. This connection can use wide spectrum of frequencies for its operation and it is impossible to determine the exact frequency range used to operate particular iRobot 710 Warrior. It can be GSM900, WiFi or other wireless frequency band. The range of the wireless remote control for iRobot 710 Warrior is about 800 meters, so you probably will not see who hides behind this metal machine. But don't start to panic because you still can prevent bad people controlling iRobot 710 Warrior from doing any harm to you, making your house safe and secure place for you and your family.

mobile jammer device for windows
